Professional Summary

Frontend Engineer specialized in **React/TypeScript**, focused on scalable UI architecture and predictable component systems. Built internal tools for logistics and retail, working with real operational data and complex flows. Strong frontend-first profile with backend fundamentals (**Node.js/Express**). English: B2 reading/listening, B1 speaking.

Technical Skills

Stack: React (TS), Next.js, Astro, Node.js, Express, MongoDB/NoSQL, REST APIs, Tailwind, Git/GitHub, Electron, Firebase, Vercel

Languages: English (B2 reading/listening, B1 speaking), Spanish (Native)

Key Projects

Control de Cubiertas — Fleet Tire Management System

React · Electron · Node.js · MongoDB

- Developed the full UI for a logistics fleet tool managing **45–65 vehicles**.
- Packaged as a Windows-ready Electron app supporting **100% offline operation** for warehouses.
- Designed structured workflows, validation and maintenance/history tracking used daily by operators.

Artemisa — Retail E-Commerce + Admin Panel

React · Tailwind · Node.js

- Built the full admin interface for a retail catalog of **~350 products** (stock, quoting, dashboards).
- Implemented clean component patterns and responsive layouts across the panel.
- Integrated Node.js APIs with JWT auth, CRUD operations and image handling.

QrStyles — Advanced QR Customization Tool

JavaScript · Canvas · SVG

- Built a customizable QR generator with gradient colors, shapes, margins and embedded logos.
- Implemented SVG export for high-quality printing and branding assets.

Professional Experience

Frontend Developer — Artemisa (Freelance)

Sep 2024 – May 2025

- Developed React interfaces for sales, stock and quoting workflows used daily by the retail team.
- Improved UX flows and supported integrations with Firebase, MercadoPago and Vercel.

Independent Developer

2024 – Present

- Delivered dashboards, admin tools and internal systems for small businesses.
- Built lightweight Node APIs and integrated external services as required.

Education

Full Stack Developer — CoderHouse (Top 10%, 2023–2025)

- Graduated with distinction; strong foundation in web architecture and frontend ecosystems.

Electronic Engineering (Incomplete) — UTN

- Solid base in logic, problem solving and system architecture.
